TOMMY'S FISHING ADVENTURES GUIDE SERVICE

I am a fisherman for life.

*I will always be a fisherman.
 It's not something I do,
 it is who I am.
 Fishing is not an escape.
 It is where I belong,
 where I am supposed to be.
 It is not a place,
 but a lifelong journey.
 It is a passage my father showed me,
 and that I will show to others.
 When you understand all of this,
 you will know me,
 and we will fish together.*

EXPERIENCE

In 1972, Tommy began guiding in Oneida and Vilas counties. In 1974 he incorporated other staff guides to further services to clients and corporate groups. But not just any guide—Tommy chose the most personable and knowledgeable guides available in the Northwoods. This organized guide staff has grown over the years to 15, with combined experience of hundreds of years of fishing knowledge. Our competent staff can accommodate your every specific need to make your fishing experience a success. Tommy has experts on each species, from the mighty musky to panfish, on your choice of waters. We have guides available day or night when you choose to fish your species.

ACCOMMODATION REFERRALS

We tailor-make your Northwoods getaway. Give us your preferences. What time of the season do you want to come? What species do you want to fish? Do you want a quiet, secluded lake? Do you want an accommodation with access to good swimming? Close to town for your family while you fish? How about a campground, or would you prefer a full American Plan resort? Just let us know your need. We will refer you to exactly the lake and accommodation that suits you. We will even send you a personalized guide fishing map from Tommy's own stock of famous lake maps.

YOU CATCH THE FISH

Nothing is more frustrating than hiring a guide and having him catch all the fish. Rest assured, we will position the boat so you catch fish. We will fish with you, but only to show you how to present your bait. If we limit out on the species you choose, we will continue to fish another species or catch and release until your time has expired.

LEARN WHILE ON THE WATER

Each of our guides is a top-notch teacher. Consider your guide date an "On the Water" seminar. You will learn presentation techniques, boat control, choice of baits for existing conditions, the lake's hot spots, and a host of other details of importance. Whether novice or expert, there is always something new to learn. Each new area fished worldwide has its own secret methods. Let our experienced guides show you the finesse methods needed to score Northwoods fish.

WE CLEAN YOUR CATCH

Our guides are expert fish cleaners. We will clean, fillet, package, label each package, and freeze your fish for your pickup on your way home.
